

# FITTINGS SOLDER WIRE 95

Lead-free solid solder wire (S-Sn95Sb5)

## DESCRIPTION

---

Solid solder wire, Tin-Antimony-alloy S-Sn95Sb5 (lead-free) according to ISO 9453:2014

## APPLICATION

---

Use for low temperature applications, plumbing, copper tube installation, metal ware. An additional external flux is required for soldering process.

## PHYSICAL PROPERTIES AND DATA

---

GENERAL PROPERTIES	FITTINGS SOLDER WIRE 95
Colour:	silver metallic
Density (20°C):	7.3 g/cm <sup>3</sup>
Melting range:	230 – 240°C

## HEALTH AND SAFETY

---

Before using please read the material safety data sheet carefully and observe the safety precautions described.

## NOTICE

---

The above values are typical and represent no form of specification. The Data Sheet serves for information purposes. Any verbal or written advise is not binding for the company, whether such information originates from the company offices or from a sales representative. This is also in respect of any protection rights of third parties, and does not release the customer from the responsibility of verifying the products of the company for suitability of use for the intended process or purpose. Should any liability on the part of the company arise, the company will only indemnify for loss or damage to the same extent as for defects in quality.
